Burr Oak Woods

Getting A Facelift

Twenty-two years ago the doors of this nature center opened and with it opened all the hopes and dreams of environmental education and interpretation for the Missouri Department of Conservation.

Burr Oak Woods was the first nature center built by the Department and the first land acquisition after the “Design for Conservation” sales tax initiative. A promise was made, and kept, to the people of Missouri for nature centers in the four largest metropolitan areas of the state and Blue Springs, neighboring Kansas City, was chosen.

The rich, diverse habitats of 1,100 acres which now surround the nature center were the reason for this land acquisition. Thousands and thousands of kids of all ages have participated in interpretive programs, guided hikes, outdoor skills, wildlife, forestry, birdwatching, and all other sorts of nature study and appreciation all over these acres. All of these activities have started in the heart of Burr Oak Woods, the nature center.

Like many of us, after twenty-two years age was beginning to show. Maybe not at the first look, but past the cosmetic make-up and deeper into the depths of the nature center you would see some of the problems. The floor in the classroom was sagging, the sprinkler system needed updating, and the restrooms needed to be more accessible. The nature center, as much as we loved her, needed a facelift.

With strong support from Director John Hoskins and Department of Conservation commissioners, especially Kansas City Commissioner Anita Gorman, our request for improvement was granted.

We have now embarked on a two-year, two-phase endeavor to continue to bring you the best. We will have a cutting edge interpretive facility with the best in environmental education and interpretative programs to serve you.

This summer begins Phase 1: The Building. Nature Center Renovation. The building closed June 1 and is scheduled to reopen

October 1. All programs and services will continue out of our small nature center in the front lot. Our reception area, some live animal exhibits, interpretive exhibits, the nature shop, and classrooms are all housed there. Folks are amazed at how nice it is inside! Stop by sometime, and keep coming back, you’ll love it!

During this renovation, each of our classrooms will be getting a sink and new audiovisual components increasing our programming capabilities. The lobby area will knock your socks off, and the restrooms are to die for! (I know that might sound silly, but just wait ‘till you see these!) The auditorium will be completely re-done with more ADA accessibility and more seats added. Again, the audiovisual will be improved. All of the other renovation activity will be in areas that you can’t see, but really needed to be done. (It’s like putting in a Pacemaker®; it’s necessary for the whole body to work correctly; you just can’t see it from the outside.)

Next Year will begin Phase 2: The Exhibits. In 2005, all of our interpretive exhibits will be renovated, bringing to you the latest and greatest in hands-on interpretation. Wild Missouri will be brought indoors for you to gain a better understanding, so that those of you who are a little shy about nature and the outdoors will feel more comfortable to venture out on your own.

Throughout this summer, besides continuing with the regular programming, the staff will begin a strategic planning process to make all of this happen. We are very excited about this process and the positive outcomes.

There will be many changes in the next few months and years ahead for Burr Oak Woods. Change is difficult for some people, while others seem to thrive. The changes that will happen to the nature center will occur in stages, so it should be acceptable for everyone. When we reopen in October, you will immediately notice some big changes, like the restrooms and the floor in the lobby, but most of the old exhibits will be back in the building, so that part will be familiar. Then next year when Phase 2 has been completed all new exhibits will be installed. This change is one I don’t think you will mind, either. They will be wonderful! It’s all very exciting!

In the meantime, please keep coming by and taking advantage of these wonderful woods, prairies, streams, glades and fabulous hiking trails. Remember, they’re all here for you! And, so are we! The naturalists are still giving programs, and the receptionists are still answering phones, questions, and helping at the nature shop while the workers are making magic behind the walls!

Twenty-two years after it first opened, Burr Oak Woods’ doors will reopen ready to fulfill more hopes and dreams for future generations!

— LYNN YOUNGBLOOD
Nature Center Manager

Helping Missourians connect with nature and conserve it, too!

Painted Woods

Sunday, July 11
2:00 p.m. Families (all ages)

We've teamed up with Home Depot to dress up our temporary nature center and we need your help. Join us on this Sunday afternoon for some family fun and painting. We're going to paint images of animals, trees, birds, and those things that live in Burr Oak Woods. Then we'll put them on the side of the temporary building. Get in the community spirit, be creative, and have fun at the same time! Please call to register.

Burr Oak Woods Butterfly Count

Saturday, July 31
9:00 a.m. Families (with children 10 and up)

Join us for the second annual butterfly count at Burr Oak Woods Conservation Nature Center. We'll break into teams and scour the fields and forests of the area in search of those species of butterflies that call Burr Oak Woods home. From swallowtails and fritillaries to blues and skippers, this is a great opportunity to learn about these delicate wonders and join like-minded people in a day of fun. Please call to register. We recommend this count for adults and children from the ages of 10 and up.

Critter Corner

Snowberry Clearwing Moth

- This is a moth that belongs to a group called the hummingbird moths because they resemble hummingbirds hovering above flowers. This particular clearwing, however, more closely resembles a bumblebee with a yellow thorax and yellow and black abdomen
- Unlike other moths, the snowberry clearwing is diurnal or active during the daylight. Being active during the day allows this moth plenty of opportunities for feed on the nectar of flowering plants. Its favorite food sources are honeysuckle, butterfly bush, coral berry and of course snowberry. The snowberry clearwing uses its long, flexible tube or proboscis to drink nectar from these plants.
- Female snowberry clearwing moths will release a pheromone to attract a mate. Often times people will see clearwing moths

- chasing each other through their garden but disregard them as bumblebees chasing each other. After mating the female will lay her eggs on one of the preferred food plants. After five to seven days the eggs begin to hatch and after 10 days details can be seen on the caterpillar. They are green caterpillars with nine dark spots down their body. They also have a raised yellow rim on their head and have a tiny rear horn resembling a black hair.
- Snowberry clearwing moths can be found throughout Missouri from late March through September. They can be seen in forests, brushy fields, and in city yards and gardens. So this summer watch your gardens closely and take a second glance at that bumblebee, you never know, it might just be a snowberry clearwing moth. -Stephanie Acers

Catch and Release Family Fishing

Saturday, July 10 or 24
9:00-11:00 a.m. Families (with children 5 and up)

What could be more enjoyable than to enjoy a warm summer morning with your family at the fishin' hole? No experience is necessary for this jump start program. We provide all equipment, even the worms! Participants age 16-65 must have a valid Missouri fishing license, which can be purchased at the nature center. So join our staff and volunteers for a great time. The pond is fully accessible. Please call to register.

Jim's Fishing Tip

If you have never had a chance to experience a flathead catfish dinner you have missed something. These wonderful fish are loners and can be found around root wads and structure on our larger rivers and lakes. Use live bluegills or large minnows and bring your heavy equipment because flatheads can get big.

The Fall Deer and Turkey Information Booklets will be available July 1st.

Come join volunteer Grace for

Burr Oak Woods
Grandma's Nature Story Hour
Every Saturday
1:30 p.m. to 2:30 p.m.

~ Naturalist Notebook ~

Our reptiles and amphibians will be available for public viewing during the month of JULY in our temporary building.

Butterfly Watching

Butterfly watching is becoming almost as popular as bird watching, and no wonder! There are more than 100,000 species throughout the world. Indeed, there are 198 fantastic species of butterflies that grace our state of Missouri! For instance, the beautiful Tiger Swallowtail is found statewide and is found in a variety of habitats, including our own back yard. They are a spectacular black, yellow, and blue butterfly, and have projections on the hind wings, hence the name. They emerge in April and are seen flying through October. They fly high amongst the tree tops descending to taste the flowers or carrion and dung! What discerning taste! Or the humble Question Mark. The Question Mark gets its name from the silvery question mark on the underside of the hind wings. These butterflies visit elm and hackberry trees, as well as nettles, animal droppings, carrion, and rotting fruit. They can be seen near puddles, streams and lakes. Everyone knows that butterflies are beautiful, but they are also fascinating to watch. You can attract these insects to your yard by planting a butterfly garden. There are five basic principles for attracting butterflies. Butterflies are attracted to nectar producing flowers. What flowers are most attractive to Missouri butterflies? Don't forget to include plants that are eaten by the caterpillars. Choose a sunny location. Butterflies need the warmth of the sun to heat their bodies. The garden should be located in an area that is protected from wind. Remember... butterflies and pesticides do not mix. If you want to attract butterflies, refrain from using pesticides in your garden.

Most important of all, take the time to get out and enjoy your exciting new hobby! For more information, come out to the nature center and ask for our free brochures. Join us for fun and educational butterfly programs during July!

-Lisa LaCombe

Fast Facts:

- Did you know that the color on the wings of a butterfly is produced by thousands of minute, colorful scales.
- The dark spots that you see on many butterflies are useful in absorbing heat and helping it to warm up on a cool spring morning.
- Many butterflies taste with their feet.
- Butterflies that are yellow and black or red and black are usually not eaten by birds because they taste bad.

- Natural Happenings -

- Female cicada-killer wasps can be seen preying on cicadas.
- Black Rat snakes are laying eggs.
- Fall webworms are building their web nests.
- Summer nights are filled with the sounds of katydids singing.
- Many young birds are leaving the nest.

Lewis and Clark

Corner

Lewis and Clark Penniccan

Lewis and Clark learned many things from the Plains Indians on their journey. The Teton Sioux taught them to make a high-energy “fast” food that could be carried anywhere. They used dried meat (pounded into powder), berries, and hot fat. This mixture was dried into cakes called *Penniccan*. Try some at home with this updated recipe:

- Place 1 cup of broken beef or buffalo jerky, 1 cup dried cranberries, and 1 cup nuts or sunflower seeds in a blender; grind until well mixed. Set aside.
 - In a microwave-safe bowl, combine 2 teaspoons honey and ¼cup peanut butter. Microwave 20 seconds or just until peanut butter is softened.
 - Stir meat and nut mixture into peanut butter mixture.
 - Press the mixture into a plastic-lined 8X8-inch baking dish. cut into bars.
 - Cover tightly and store in the refrigerator.
- Try this the next time you are taking a hike for a convenient energy boost.

Lewis and Clark Trunks Available

Summer is here and academic activities are difficult to find. Homeschoolers look no further! Burr Oak Woods has Lewis and Clark Educational Resource Trunks available (primary level kindergarten - 3rd grade and secondary level 4th - 6th grade), which are available for a one week check outs. These trunks will give students a chance to handle tools and materials similar to those the expedition carried, as they discover the importance of natural resources to the westward expansion and compare them to those of today. Lesson plans are also included. Please call Lauren at 816-655-6263 x223 to reserve a trunk today!

Nature Centers Kick off Lewis & Clark Journaling Adventure

In concert with the Lewis and Clark celebrations going on throughout Missouri, the Missouri Department of Conservation has begun a new program entitled “Journaling With Lewis and Clark: A Discovery of Outdoor Missouri.” Your mission is to explore the Conservation Department’s nature centers and interpretive sites throughout Missouri and record your experiences in true Lewis and Clark fashion in a special *Journaling with Lewis and Clark* booklet. Simply stop by and pick up a copy of the booklet and complete the journaling task outlined for Burr Oak Woods. We’ll stamp it and you’ll receive a Lewis and Clark commemorative pin for your efforts. Then take your journal and visit the other locations around the state to complete their journaling tasks. Once you’ve completed your journal, you’ll receive a special award for your effort! Come out and start exploring today!

Sacagawea, Bird Woman...

Images of the Last Frontier...

Who was she really?

Friday, July 23

7:00 p.m. Families (with children 6 and up)

Sacagawea speaks to us through the ages as a Shoshone woman, wife of French fur trapper, Toussaint Chabonneau, mother of two children, and immortalized member of the Lewis and Clark Expedition. Please join us as Dianne Moran, folklorist and naturalist, recounts Sacagawea’s thoughts on the journey of the century. Please call to register.

Plants of the Lewis & Clark Expedition

Sunday, August 1

2:00 p.m. Families (with children 12 and up)

Join us as author and botanist, H. Wayne Phillips, joins us from his home in Great Falls, Montana. Wayne, formerly a Forest Service Ecologist, will present a slide show that combines history with botany. He will take you from St. Louis to Fort Clatsop along the Lewis & Clark trail. With stunning photography, he will show you the characteristic landscape and plants encountered by Lewis & Clark while discussing the related observations of the explorers in their journals. After the presentation, Wayne will be on hand to sign your copy of his wonderful book. A must-have for the botanist or Lewis & Clark enthusiast! Please call to register.

GO WILD!

WITH THE NATURALISTS
AT BURR OAK WOODS!

Youngsters

9 to 11 years old

“M” Files

Ladies and Gentlemen, we’ve called in the naturalists in black! Your students will be asked to become special agents of this team. We will work together to uncover the clues surrounding this case, using rap sheets and eyewitness accounts. See if you can identify the “mystery mammal” in a lineup.

Intelligence reports indicates that we will uncover the clues somewhere deep within the forest! Bring a bottle of water. Please call to register.

July 15

9:00 to 11:00 a.m.

Burr Oak Creek Expedition

Burr Oak Creek has many delightful secrets just waiting to be discovered. Join the aquatic ecology team as we explore its hidden wonders. Dress to get wet and muddy and bring water! Join in on the fun! Please call to register.

July 13

9:00 to 11:00 a.m.

Gone Fishin’

There is nothing more exciting than reeling in your first fish. We will learn about some of Missouri’s native fish and what it takes to catch “the big one.” Then we’ll try our luck at the Burr Oak Woods fishing pond. We provide the bait and equipment. Dress for the weather and bring water. Please call to register.

July 14

9:00 a.m. to 11:00 a.m.

Youngsters

12 years old and up

Map and Compass Challenge

Have you ever been in the middle of nowhere and wished you knew how to use a map and compass? After learning the

ABC’s of the map and compass, we will challenge your skills against others in a relay race through a course designated just for map and compass knowledge. Please dress for the outdoors and bring bottled water. Please call to register.

July 14

9:00 to 11:00 a.m.

Gone Fishin’

There is nothing more exciting than reeling in your first fish. We will learn about some of Missouri’s native fish and what it takes to catch “the big one.” Then we’ll try our luck at the Burr Oak Woods fishing pond. We provide the bait and equipment. Dress for the weather and bring bottled water. Please call to register.

July 16

9:00 a.m. to 11:00 a.m.

Every kid loves bugs and other creepy crawly critters. We will be turning over logs, rocks, and leaves in search of these hidden animals. From worms to spiders, there’s just no telling what creepy critters we’ll find. Dress to get dirty and bring water. Please call to register.

July 13

9:00 to 11:00 a.m.

Outdoor Skills Camp!

Welcome to the 4th annual Outdoor Skills Camp! Does your child love to explore and have fun in the outdoors? Do they like the challenge of learning new skills? Then this camp is for you! We will work together in teams to try our hand at some really cool outdoor skills such as air rifles, archery, canoeing and fishing! Come on out, make some new friends, and experience a small taste of real adventure this summer! Safety is first during these special programs. Don’t miss it! Please call to register

July 6 9:00 a.m.-2:00 p.m. age 9-12	July 19 9:00 a.m.-2:00 p.m. 13 and up
7 9:00 a.m.-2:00 p.m. 13 and up	20 9:00 a.m.-2:00 p.m. age 9-12
8 9:00 a.m.-2:00 p.m. age 9-12	21 9:00 a.m.-2:00 p.m. 13 and up

Outdoor Skills Challenge Day!

July 9 9:00 a.m. – 11:00 a.m. ages 9-12	July 22 9:00 a.m. – 11:00 a.m. 13 and up
1:00 a.m. – 3:00 a.m. 13 and up	1:00 a.m. – 3:00 a.m. ages 9-12

Are you ready to attempt the Burr Oak Woods Outdoor Challenge Course? It is time to put your new skills to the test. You are sure to have fun! Prizes and special awards will be handed out. You must have attended one of the outdoor skills camps in July to participate in the challenge. Please call to register.

Program Registration

Please call 816-228-3766 (TDD 816-655-6268) on or after the 1st of the month to register for the **FREE** programs list on this page. It is important to arrive five minutes before the program time. If you have to cancel, please call as soon as possible so someone on the waiting list can attend.

3 Saturday

Deaf and Hard of Hearing: Get Your Feet Wet

You will be intrigued as we explore the wonder of streams. Streams provide important habitat, and are a source of water for wildlife and for you and me. This program will examine the water cycle, water pollution and the importance of water conservation through many hands-on, fun activities. Just jump right in! Please call to register.

Ages: Families (children 8 and up)
Time: 9:00 - 11:00 a.m.

6 Tuesday

Outdoor Skills Camp

See details on page 3. Please call to register.
Ages: 9-12
Time: 9:00 a.m.-2:00 p.m.

7 Wednesday

Outdoors Skills Camp

See details on page 3. Please call to register.
Ages: 13 and up
Time: 9:00 a.m.-2:00 p.m.

8 Thursday

Outdoors Skills Camp

See details on page 3. Please call to register.
Ages: 9-12
Time: 9:00 a.m.-2:00 p.m.

9 Friday

Outdoor Skills Challenge

See details on page 3. Please call to register.
Ages: 9-12
Time: 9:00-11:00 a.m.
Ages: 13 and up
Time: 1:00-3:00 p.m.

10 Saturday

Family Fishing

See details on page 3. Please call to register.
Ages: Families (children 5 and up)
Time: 9:00-11:00 a.m.

10 Saturday

Bring on the Butterflies

Have you ever wondered what kind of butterfly was fluttering its beautiful colors through the air? We will learn the life cycle of the butterfly and identify common butterflies found in Missouri. Then we will go outside to look for the real thing. Dress for the weather. Please call to register.

Ages: Families (children 5 and up)
Time: 12:30-2:00 p.m.

11 Sunday

Adults Only: Archery 101

Did you ever want to learn how to shoot archery? Well, now is your chance! You will learn the basics of archery and test your skills as we practice shooting at targets. Dress for the weather. Please call to register.
Ages: Adults only (18 and up)
Time: 1:00-2:30 p.m.

11 Sunday

Adults Only: Hiking Club

Join the Burr Oak Woods Hiking Club for their monthly trek. This month they'll be heading to Lake Jacomo in Blue Springs to experience the nature trails of this large Jackson County park. Be sure to bring plenty of water and dress for bugs and heat. Please call to register.

Ages: Adults only (18 and up)
Time: 1:00-4:00 p.m.

11 Sunday

Painted Woods

See details on page 2. Please call to register.
Ages: Families (all ages)
Time: 2:00 p.m.

13 Tuesday

Go Wild!

Bugs, Slugs, and Thing-a-ma-lugs

See details on page 3. Please call to register.
Ages: 6-8
Time: 9:00-11:00 a.m.

13 Tuesday

Go Wild!

Bur Oak Creek Expedition

See details on page 3. Please call to register
Ages: 9-11
Time: 9:00-11:00 a.m.

14 Wednesday

Go Wild!

Gone Fishin'

See details on page 3. Please call to register.
Ages: 9-11
Time: 9:00-11:00 a.m.

14 Wednesday

Go Wild!

Map and Compass Challenge

See details on page 3. Please call to register.
Ages: 12 and up
Time: 9:00-11:00 a.m.

15 Thursday

Go Wild!

Hop, Skip and Jump

See details on page 3. Please call to register.
Ages: 6-8
Time: 9:00-11:00 a.m.

15 Thursday

Go Wild!

"M" Files

See details on page 3. Please call to register.
Ages: 9-11
Time: 9:00-11:00 a.m.

16 Friday

Go Wild!

Gone Fishin'

See details on page 3. Please call to register.
Ages: 12 and up
Time: 9:00-11:00 a.m.

16 Friday

Deaf and Hard of Hearing: Evening Fishing

Evening Fishing

What a great way to enjoy a cool evening in the outdoors with a pole in hand! Grab your family and friends for an evening of fishing and try our skill. You do not want to miss this event! Ages between 16 and 65 must have a fishing permit to participate. Please call or email to register.
Ages: Families (children 5 and up)
Time: 6:00-9:00 p.m.

17 Saturday

Metamorphosis: Dance of the Butterfly

Bring your little scientist out to learn about the wild and wonderful world of Missouri butterflies. We will learn about metamorphosis through fun-filled, hands-on activities. Please call to register.

Ages: 3-6

Time: 10:00-11:30 a.m.

17 Saturday

Stream Families: Macro-Invertebrate Mayhem

Calling all budding stream ecologists! We need you! Come out and help us survey the aquatic insects in Burr Oak Creek! Each species of aquatic insect has specific tolerance levels to pollution. We will use the data to determine the water quality. We will conclude our research with educational, interactive games. Please call to register.

Ages: Families (children 10 and up)
Time: 2:00-4:00 p.m.

18 Sunday

Adults Only: Introduction to Canoeing

Have you ever wanted to learn how to canoe, but did not know how to acquire the skills you needed? Then this is the class for you! Come out and learn the basic strokes, rescue techniques, the best places to go, and just how to plan a trip of your own. You won't want to miss out on this fun-filled program. Be prepared to get muddy and wet. Please call to register.

Ages: Adults only (18 and up)

Time: 1:00-4:00 p.m.

19 Monday

Outdoor Skills Camp

See details on page 3. Please call to register.

Ages: 13 and up
Time: 9:00 a.m.-2:00 p.m.

20 Tuesday

Outdoors Skills Camp

See details on page 3. Please call to register.
Ages: 9-12
Time: 9:00 a.m.-2:00 p.m.

21 Wednesday

Outdoors Skills Camp

See details on page 3. Please call to register.
Ages: 13 and up
Time: 9:00 a.m.-2:00 p.m.

22 Thursday

Outdoor Skills Challenge

See details on page 3. Please call to register.
Ages: 13 and up
Time: 9:00-11:00 a.m.
Ages: 9-12
Time: 1:00-3:00 p.m.

23 Friday

Sacagawea, Bird Woman...

Images of the Last Frontier...

Who was she really?

See details on page 6. Please call to register
Ages: Families (children 6 and up)
Time: 7:00-8:30 p.m.

24 Saturday

Family Fishing

See details on page 6. Please call to register.
Ages: Families (children 5 and up)
Time: 9:00-11:00 a.m.

24 Saturday

Frontiers: Animal Signs

Join us for another exciting frontiers program learning about animal signs. We will take a nature hike and look for nests, tracks, burrows and other animal signs. Bring a water bottle and dress for the weather. Please call to register.

Ages: All Ages

Time: 10:00-11:30 a.m.

25 Sunday

Who Eats You?

What does a turkey vulture eat? Would any animal eat a smelly skunk? Come learn about different predator and prey species that live at Burr Oak Woods and take our "Who Eats You" challenge. Please call to register.

Ages: Families (children 5 and up)

Time: 1:00-2:00 p.m.

31 Saturday

Burr Oak Woods Butterfly Count

See details on page 2. Please call to register.
Ages: Adults with children 10 and up
Time: 9:00 a.m.

31 Saturday

Deaf and Hard of Hearing: Butterflies Everywhere!

It is this time of the year again when butterflies are everywhere! We will go out to the prairie and catch butterflies. We will identify every butterfly we catch. What a great way to spend with the butterflies up close and personal. We will take home a butterfly craft. Please call to register.

Ages: Families (children 5 and up)

Time: 9:30 a.m.-Noon

1 Sunday

August

Plants of the

Lewis & Clark Expedition

See details on page 6. Please call to register.
Ages: Families (with children 12 and up)
Time: 2:00-3:30 p.m.
